POSTAL REGULATORY
COMMISSION
OFFICE OF THE SECRETARY

RECEIVED
2011 APR -4 P 2:23

Dear Sirs and Madams,

We believe it would be a wasteful thing to shut down our Ida, Ar. Post Office, not to mention many other smaller post offices. They are mostly in smaller communities between the bigger cities or towns that people don't go to, or at least not very often. You have people such as ourselves who are disabled and older people in these communities that use the smaller post offices. It is much more convenient for us to use a post office such as these, because we don't get out much and when we do, we don't try to go to far. We don't go very far because of a lot of reasons. So if you start closing down the smaller post offices we will only be able to mail out our bills and other things maybe twice a month in a good month. It just isn't easy for a lot of the people in the smaller towns to get out and go 30 to 40 miles so they can go to the post office.

If you don't live in smaller communities such as ours, it would be very hard for you to understand, so you are talking about doing something that you have no real knowledge of. Even if you live in a small community like these, if you don't have the physical problems that so many out here have, you still will not have an idea as to the need for these post offices in between the larger areas. So please consider what we are telling you and leave these offices as they are. I'm sure we are not the only ones who feel this way.

Thank you for your time in reading our concerns and hope you will all do what is right for the people.

Thank you,
Kim and Vicky Werner
